### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with Larry Greenwood on 8-7-2006.

2. The application has been amended as follows:

- Claim 1, line 11, "a sludge inflow" has been replaced with --and in combination with a sludge inflow of a chamber plate--.
- Claim 13, line 23, before "a sludge inflow", --and in combination with--has been added.

### ***Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance:

- Claims 1 and 13 have been amended to make clear that the planar region of the membrane is in combination with the sludge inflow of a chamber plate and is disposed opposite thereto.
- The closest cited art—Davis and DE 4119166A1--fails to disclose the aforementioned limitation, alone or in any proper combination. In DE '166 the inflow is at the *top* of the *membrane* plate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.
